CIB-SIBBM JOINT SATELLITE-SYMPOSIUM

Phase-separation and Self-Organizing Biocondensates in Cell Biology

Padova, Botanical Garden - 3rd July 14.30-17.30

Molecular mechanisms controlling LLPS functionality and dynamics.
Simon Alberti, Technische Universität Dresden, Germany

RNP assembly and RNA-protein associations.
Gian Gaetano Tartaglia, IIT Genova, Italy

Regulators of phase transition in various cellular contexts.
Lucas Pelkmans, University of Zurich, Switzerland
