

Two Positions are available to highly motivated scientists who will be working as part of a multidisciplinary team, composed of Molecular, Cancer and Computational-biologists.

**Lead PIs:**

Ernesto GUCCIONE

Dave Keng Boon WEE

**Field of Research:**

The proposal field of research is molecular oncology, specifically we will dissect the role of a novel oncogenic Zn-finger protein in Hematological malignancies. We aim at:

1. Studying the mechanistic role of this novel Zn-finger protein in driving tumorigenesis and
2. Developing tools to inhibit its functions for therapeutic purposes.

**Qualifications:**

Strong background in Molecular Biology, Epigenetic mechanisms of gene regulation, Genomics or Computational Science is appreciated.

**Contract:**

Contract can be up to 3 years.

**Application:**

Positions are available from April 2017.

Review of applications will begin immediately, till positions are filled.

Please send CV, a statement of research interests, names and e-mail addresses of referees to:

Ernesto GUCCIONE: [eguccione@imcb.a-star.edu.sg](mailto:eguccione@imcb.a-star.edu.sg)
