

THE VIENNA BIOCENTER (VBC) PHD PROGRAMME IN LIFE SCIENCES

Dear Colleague

The Vienna Biocenter PhD programme summer call is now open and we are offering approx. 20 fully financed positions.

We invite applications from motivated and knowledgeable applicants from all over the world. Applicants should hold a Master's degree or equivalent from a university in the field of Natural Sciences. It is also possible to apply when the master's degree is received within six months of the application deadline.

The Vienna Biocenter is a highly multidisciplinary environment, with research areas ranging from molecules to populations: RNA biology, gene regulation and epigenetics; Biochemistry, structural and cell biology; Stem cells and developmental biology; Molecular medicine; Neuroscience; Plant biology; Bioengineering and computational biology; and Evolutionary and population biology. Most importantly the scientific atmosphere is extremely dynamic and collaborative, students have numerous opportunities to meet, talk, listen and collaborate with fellow scientists.

Vienna is consistently rated as one of the top cities in Europe for quality of life. It is a modern, international metropolis in the heart of Central Europe, a city with a quality lifestyle and an embraceable joy for living.

Christopher Robinson
