PhD student position

"BIOTECNOLOGIE MEDICHE E MEDICINA TRASLAZIONALE"

University of Rome Tor Vergata.

A PhD student fellowship is available at the Department of Biomedicine and Prevention, section of Anatomy, University of Rome Tor Vergata, to work on the following project: "Endocannabinoid system and synaptic plasticity".

The research project aims to investigate at molecular level, the endocannabinoid signaling in the regulation of synaptic function in the mammalian brain.

Interested applicants can submit their CV or contact: Prof.ssa Paola Grimaldi (p.grimaldi@med.uniroma2.it)

The PhD position is in the frame of the Dottorato di ricerca in "Biotecnologie Mediche e Medicina Traslazionale" of the University of Rome Tor Vergata, within the specific section "Scienze e Biotecnologie della Riproduzione e dello Sviluppo". The official public announcement ("bando 2017") will be available at the following link: <http://dottorati.uniroma2.it/>, in which instructions to apply for the PhD position can be found.
