

Postdoctoral Position  
Laboratory of Thanos Halazonetis  
Department of Molecular Biology  
University of Geneva

A postdoctoral position is available for recent or upcoming PhD graduates to study DNA replication stress using high throughput sequencing methods.

Candidates with a strong publication record can send their CV to:  
[thanos.halazonetis@unige.ch](mailto:thanos.halazonetis@unige.ch)

There is no specific application deadline or start date.
