

A RESEARCH TECHNICIAN POSITION AVAILABLE/(SR-TIGET).

A research technician position is available in the Unit of Gene transfer into Stem Cells, at San Raffaele Telethon Institute for Gene Therapy (SR-TIGET).

We are looking for a highly motivated technician with strong expertise in genetic mouse models, animal handling and care.

Additional experience in flow cytometry, molecular and cell biology will be considered as a plus.

The successful candidate will work in team on projects aimed to develop new strategies of gene therapy for hemoglobinopathies.

The position is immediately available. Type of contract and salary will be commensurate to experience.

Please send a CV and reference letters or contact information for one/two referees to **Giuliana Ferrari** and **Barbara Palma** at Giuliana.ferrari@hsr.it and Barbara.palma@hsr.it
