

The Faculty of Medicine is currently establishing a new center for cancer research, which is funded by a grant from the German Cancer Aid (Deutsche Krebshilfe). The center ("Mildred-Scheel Nachwuchscenter" (MSNZ)) is dedicated to excellent tumor research and will support joint research projects of medical and life sciences researchers. **Researchers in this center will interact closely with the Comprehensive Cancer Center (CCC) Mainfranken, a joint institution of the University Hospital and the University of Würzburg** focusing on cancer medicine and tumor research. For the MSNZ, we look for

▶ Postdoctoral Fellows (PhD) and Clinician Scientists (MD) (f/m)

OUR OFFER

- Joint appointment by the MSNZ and a clinical department or a research group of the University or the University Hospital
- Intellectual support and funding for your own research project including funding for a technician or a Ph.D. student and consumables
- Access to shared laboratories at the MSNZ
- Professional skills training
- Close collaborations with both the University and the University Hospital

APPLY IF YOU HAVE

- Completed Ph.D. or MD thesis
- Strong interest in molecular or translational oncology
- Strong motivation to set up an independent research project
- For Postdoctoral Fellows: up to 4 years research experience after your PhD
- For Clinician Scientist: License to practice medicine in Germany, i.e. "Approbation als Arzt/Ärztin" or "Berufserlaubnis nach §10 der Bundesärzteordnung"

We are broadly interested in current topics of molecular oncology, including, for example, the role of deregulated transcription and protein turnover in tumorigenesis, interactions of tumor cells with the host immune system as well as new chemical-biological approaches to control tumor growth.

Applications of people with special needs are particularly welcome.

Information about the research groups and clinical departments that participate in the MSNZ can be found at www.biozentrum.uni-wuerzburg.de/msnz.

To apply, please electronically submit a CV, a list of publications and a one-page outline of your research interests, indicating the research group you would like to work with. The deadline for the application is **November 15th, 2018**. The University of Würzburg and the University Hospital Würzburg are equal opportunities employers. Women, therefore, are especially encouraged to apply. Applications of people with special needs are particularly welcome.
