

Dear colleague,

Two Senior Technician position as well as PostDoc positions are available at the Human Technopole Structural Biology Research Centre in Milan :

1) Senior technician/Lab manager in the Vannini's Lab (<https://careers.humantechnopole.it/o/senior-research-technician>) . [experience in biochemistry and ideally structural biology will be necessary]

2) Senior technician/manager of the biomass production platform(<https://careers.humantechnopole.it/o/senior-technician>) . [experience in large scale cell culture / microbial fermentation will be necessary]

3) Postdoctoral positions in cryo-EM (SPA and Cryo-ET and -CLEM) will be available in Prof. Alessandro Vannini's lab.

Please do enquire via email (StructuralBiology@fht.org) attaching a CV, research track-record and names of at least 2 referees]

I would be very grateful if you could let circulate these ads.

Best wishes,

Alessandro

Alessandro Vannini
Professor in Integrative Structural Biology

Head of Structural Biology Research Centre
