del Differenziamento

# **Stem Cells, Development and Regenerative Medicine (SCDRM 2014)**

Salerno, Italy, 6-7 June 2014  
<http://SCDRM2014.azuleon.org>

Dear Friends and Colleagues,

It is our great pleasure to invite you to the ABCD Meeting on **Stem Cells, Development and Regenerative Medicine**, to be held in Salerno on 6-7 June 2014.

The scope of the meeting is to foster interactions within the scientific community interested in embryonic development, cell and tissue plasticity, stem cell biology and their potential therapeutic applications. We aim at promoting the integration of emerging concepts in the field of development and differentiation with the control of stem cell properties and cell/tissue plasticity. The meeting will pay equal attention on new molecular/cellular basis of biological processes, normal and pathological, as well as the application of established knowledge towards approaches of cell-based regeneration.

The sessions of the meeting will focus on the following topics:

- **Molecular mechanisms of development and differentiation**
- **Tissue repair and regenerative medicine**
- **Stem cells biology and cancer**

In this edition, our Keynote Speakers will be:

**Cedric Blanpain**, Université Libre de Bruxelles, Belgium  
**Davide Gabellini**, Telethon Scientist, Division of Regenerative Medicine, DIBIT, Milan, Italy  
**Heiko Lickert**, Institute of Stem Cell Research, Neuberberg, Germany  
**Gianvito Martino**, Director, Division of Neuroscience, San Raffaele Hospital, Milan, Italy

We strongly encourage young scientists to submit their contributions. Submitted abstracts will be selected for oral and poster presentations. A limited number of fellowships will be available to cover the meeting costs. The conference will be held in the **Grand Hotel Salerno** overlooking the beautiful harbor of Salerno just a few steps from the train station.

We hope that the meeting will offer a much needed opportunity to share ideas, promote collaborations, and encourage young researchers to enter in the field. The setting of the conference has been chosen to provide a friendly environment to stimulate formal and informal discussions, both during the meeting sessions and while enjoying food and drinks.

Registrations and abstracts are accepted exclusively through the **website** from next Monday, 3 March, to 30 April 2014.

ABCD members benefit from reduced registration fees.

The official language of the meeting is English.

The organisers,

*Giorgio Merlo, Università di Torino*  
*Caterina Missero, Università di Napoli Federico II*
